

INFORMATION SCIENCE

Study abroad in the United Kingdom and study Information Science through a global lens. At UA London, hosted by St. Mary's University, you can choose from a variety of English taught courses to satisfy your degree requirements, including general education with the approval of your academic advisor. To make choosing courses easier, faculty in the College of Information Science preapproved courses to satisfy many of your Information Science major requirements.

The best part is, you'll pay your regular University of Arizona tuition and can use financial aid and scholarships, including **AZ Excellence** and **Wildcat Excellence** awards! Course availability varies per semester and can be subject to change.

Learn more about Global Tracks for your major, connect with your academic advisor, and start your study abroad application by visiting studyabroad.arizona.edu/global-tracks.

UA LONDON COURSE	APPLICABILITY TO INFORMATION SCIENCE
CPS 4003: Programming Principles and Techniques	ISTA 130: Computational Thinking and Doing
