

## INFORMATION SCIENCE

Study abroad in Spain and study Information Science through a global lens. At UA Madrid, hosted by Institute for American Universities, you can choose from a variety of English taught courses to satisfy your degree requirements, including general education with the approval of your academic advisor. To make choosing courses easier, faculty in the College of Information Science preapproved courses to satisfy many of your Information Science major requirements.

The best part is, you'll pay your regular University of Arizona tuition and can use financial aid and scholarships, including **AZ Excellence** and **Wildcat Excellence** awards! Course availability varies per semester and can be subject to change.

Always keep in mind that every student is on a different path towards graduation, so the best way to plan for studying abroad is to work directly with your academic advisor to discuss which courses will be best for your academic and professional goals.

UA MADRID COURSE	APPLICABILITY TO INFORMATION SCIENCE MAJOR
<b>MTH 149:</b> Calculus & Analytic Geometry I	<b>MATH 122B:</b> First-Semester Calculus <b>Satisfies Foundation Math Requirement</b>

---

When choosing courses, always consult with your academic advisor. Course availability is subject to change and new courses are added often. If you see a course that is not on this preapproved list, that's okay! Your academic advisor can help you facilitate further course evaluations while you prepare to go abroad.

UA MADRID COURSE	APPLICABILITY TO INFORMATION SCIENCE MAJOR
