

## B.S. PUBLIC HEALTH

Spend a semester abroad in Australia and see your Public Health major through a global lens. At UA Sydney, hosted by the University of Technology Sydney, you can choose from a variety of English taught courses to satisfy your degree requirements, including general education with the approval of your academic advisor. To make choosing courses easier, faculty from The College of Public Health preapproved courses to satisfy requirements in your B.S. Public Health major. The best part is, you'll pay your regular University of Arizona tuition and get to use financial aid and scholarships, including **AZ Excellence** and **Wildcat Excellence** awards! Course availability varies per semester and can be subject to change. Course evaluations may be subject to change. Always consult with your academic advisor while working on your study abroad application.
