Study Abroad

UA Athens

CLIMATE CHANGE & SOCIETY MINOR

Spend a semester abroad in Greece and study your Climate Change & Society minor through an international lens at UA Athens, hosted by American College of Greece. You'll get to immerse yourself in the local culture and will feel a sense of community by living and learning right in the heart of the city. Choose from a variety of courses to satisfy your minor requirements as well as additional degree requirements, including general education classes, with the approval of your academic advisor.

Additionally, to help making choosing courses easier, faculty in the School of Natural Resources and the Environment preapproved courses to satisfy requirements directly in your Climate Change & Society minor.

The best part is, you'll pay your regular University of Arizona tuition and get to use financial aid and scholarships, including **AZ Excellence** and **Wildcat Excellence** awards! Get ready to go abroad and get ahead at UA Athens!

Course availability varies per semester and can be subject to change.

Please note: A minimum of 9 units of your Climate Change & Society minor must be taken in residence.

Learn more about Global Tracks for your major, connect with your academic advisor, and start your study abroad application by visiting studyabroad.arizona.edu/global-tracks.
