

THE UNIVERSITY OF ARIZONA
Study Abroad

UA London

GAME DEVELOPMENT

Study abroad in the United Kingdom and study Game Development through a global lens. At UA London, hosted by St. Mary's University, you can choose from a variety of English taught courses to satisfy your degree requirements, including general education with the approval of your academic advisor. To make choosing courses easier, faculty in the College of Information Science preapproved courses to satisfy many of your Game Development major requirements.

The best part is, you'll pay your regular University of Arizona tuition and can use financial aid and scholarships, including **AZ Excellence** and **Wildcat Excellence** awards!

Always keep in mind that every student is on a different path towards graduation, so the best way to plan for studying abroad is to work directly with your academic advisor to discuss which courses will be best for your academic and professional goals.

Course availability varies by semester and may be subject to change. Refer to the program webpage for current offerings.

Learn more about Global Tracks for your major, connect with your academic advisor, and start your study abroad application by visiting studyabroad.arizona.edu/global-tracks.

When choosing courses, always consult with your academic advisor. Course availability is subject to change and new courses are added often. If you see a course that is not on this preapproved list, that's okay! Your academic advisor can help you facilitate further course evaluations while you prepare to go abroad.

UA LONDON COURSE	APPLICABILITY TO GAME DEVELOPMENT
