MEDICINE

Study abroad in England and see your Medicine major through a global lens. At UA London, hosted by St. Mary's University, you can choose from a variety of courses to satisfy your degree requirements, including general education with the approval of your academic advisor. To make choosing courses easier, faculty in the College of Medicine preapproved courses to satisfy many of your Medicine major requirements. The best part is, you'll pay your regular University of Arizona tuition and can use financial aid and scholarships, including **AZ Excellence** and **Wildcat Excellence** awards! Course availability varies per term and can be subject to change.

Learn more about Global Tracks for your major, connect with your academic advisor, and start your study abroad application by visiting studyabroad.arizona.edu/global-tracks.

Please note: If you plan to apply to a health professional program, you must consult with your Pre-Health academic advisor to ensure the courses you choose to take abroad will be accepted by your future program as there may be some restrictions on international credits in your application. This may also require you to contact the admissions team for the specific program you intend to apply to.

UA LONDON COURSE	PREAPPROVED EMPHASIS OPTIONS
