

THE UNIVERSITY OF ARIZONA
Study Abroad

UA Sydney

PUBLIC HEALTH

Spend a semester abroad in Australia and see your Public Health major through a global lens. At UA Sydney, hosted by the University of Technology Sydney, you can choose from a variety of English taught courses to satisfy your degree requirements, including general education with the approval of your academic advisor. To make choosing courses easier, faculty from The College of Public Health preapproved courses to satisfy requirements in your Public Health major. Plus, you'll pay your regular University of Arizona tuition and get to use financial aid and scholarships, including **AZ Excellence** and **Wildcat Excellence** awards!

Always keep in mind that every student is on a different path towards graduation, so the best way to plan for studying abroad is to work directly with your academic advisor to discuss which courses will be best for your academic and professional goals.

Course availability varies by semester and may be subject to change. Refer to the program webpage for current offerings. *Learn more about Global Tracks for your major, connect with your academic advisor, and start your study abroad application by visiting studyabroad.arizona.edu/global-tracks.*

Please note: If you plan to apply to a health professional program, you must consult with your Pre-Health academic advisor to ensure the courses you choose to take abroad will be accepted by your future program as there may be some restrictions on international credits in your application. This may also require you to contact the admissions team for the specific program you intend to apply to.
